

# Pen And Ink Techniques

## Contour Lines-

(smoothly flowing, form fitting strokes)

- smooth, curved objects
- polished surfaces
- fluid motion
- glass, metal

The seven basic texturing strokes can be layered or combined to produce countless effects.

## Crosshatching-

(two or more intersecting lines)

- deepen tonal values, heavy shadows
- roughened texture varying in degrees according to angle, precision and nib size

## Parallel Lines-

(straight, free hand lines, stroked in the same direction)

- smooth, flat objects
- faded, hazy, misty or distant look
